

## New Modules

WISE-MD consists of 13 modules, 5 of which have been newly released:

- Anorectal Disease
- Burn Management
- Diverticulitis
- Skin Cancer
- Thyroid Nodule

## Modules In Production

The following two modules are near completion:

- Breast Cancer
- Bowel Obstruction

The following three modules are entering early stages of production:

- Bariatric Surgery and Obesity
- Pediatric Surgery: Hernia & Hydrocele
- Pediatric Surgery: Pyloric Stenosis

## Self-Assessment

WISE-MD has developed 7 question types to incorporate into the modules. These are available for the colon cancer, cholecystitis, and trauma modules.

## Technology Enhancements

WISE-MD modules have been migrated from a local server to a commercial Content Distribution Network allowing for faster download time.
